Executive Summary of Annual Plan

The mission of the Colorado Department of Local Affairs (DOLA), Division of Supportive Housing (SHP) is to ensure that Coloradans live in safe, decent, and affordable housing. We do this by helping communities meet their housing goals. DOLA is the only department in the State that has both a Consolidated Plan and a Public Housing Agency Plan.

The Housing Choice Voucher (HCV) Program is a major federal government program which assists very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Based on federal requirements, SHP must provide 75 percent of its vouchers to applicants whose incomes that are lower than 30 percent of the area median income. Median income levels are published by U.S. Department of Housing and Urban Development (HUD) and vary by location.

SHP is one of the designated agencies for the administration of the HCV Program in Colorado. SHP currently administers 3,616 vouchers statewide. SHP primarily provides assistance to persons who are disabled or have other special needs. SHP also administers a HCV Homeownership Program to promote opportunities for families to become homeowners.

SHP must comply with requirements of the HUD regarding activities as a Public Housing Agency (PHA), including the development of both a 5-year PHA Plan and Annual Plan. The Annual Plan provides an outline for the implementation of the HCV Program, including information on current needs from the Consolidated Plan and the makeup of the state's existing waiting list. Much of the plan is developed based on federal requirements. Each year, the Annual Plan is based on the premise that if we accomplish our goals and objectives, we will be working towards the achievement of our mission. The statements and policies set forth in the Annual Plan all reflect the accomplishments of our 5-Year Plan goals and objectives. Taken as a whole, these policies and accomplishments outline a comprehensive approach consistent with the Consolidated Plan.

As part of the Agency Plan review process, SHP appoints a Resident Advisory Board which reviews and comments on components of the Agency Plan. The Advisory Board's comments are included in the Final Plan. The Plan is posted on SHP's website for a 45-day review period for public comment.

This year, SHP has also completed a review of all internal policies and procedures to ensure compliance with changes in Federal program policy directives. These policies, contained within the PHA Administrative Plan, are also available for review during the PHA Plan process and incorporated into the PHA Annual Plan.

Annually, SHP conducts a statewide housing survey to determine the number of families on Colorado's PHA waiting lists. The survey, although a snapshot in time, indicates that in January 2011, roughly 58,667 families were waiting for government rental assistance. This substantiates there is not enough deep subsidy rental assistance available to the lowest income renters in Colorado.

SHP tries to enhance our customer service by continuously working with staff to employ quality work practices and initiatives. In addition, SHP applies for additional HCV funding as Notifications of Funding Availability (NOFA) announcements are issued by HUD. SHP strives to improve the quality of life for the participants in our programs and ensure that only those who are truly qualified continue to be assisted, with efforts to identify and counteract instances of fraud. In summary, SHP is continuously working to provide quality affordable housing for extremely low, very low, and low income households in Colorado by operating a high quality Housing Choice Voucher program.

Persons with Disabilities

Colorado's economy has created new and difficult housing challenges for the State's special needs population. "Persons with Disabilities" include individuals with chronic mental illness, physical disabilities, developmental disabilities, drug and/or alcohol addiction, HIV/AIDS, and multiple diagnoses. This population generally is unable to hold full-time employment, has higher than normal medical expenses, may require assistance in activities of daily living (e.g. cooking, cleaning, personal care, etc.), and most significantly, has limited income that provides them few options in housing. Their ability to compete in the housing market for affordable and appropriate housing is limited in many cases not only by their lack of income, but also by their need for special accommodations. Many special needs populations are losing ground.

For many individuals, Supplemental Security Income benefits (SSI) provide the bulk of their income. Colorado's maximum monthly SSI benefit is \$699. According to a 2010 study by the Consortium for Citizens with Disabilities, *Priced Out in 2010*, the average national rent was greater than the amount of income received by persons with disabilities from the SSI program. Specifically, the average rent for a modest one-bedroom rental unit in the United States was equal to 112 percent of SSI benefits. According to a 2010 American Community Survey, 29.3% of persons with disabilities are living at less than 125% of the poverty level.

Homeless Needs

Poverty increases the risk of homelessness. The housing market crisis, predatory lending, and the loss of jobs have all contributed to poverty and impacted families' well-being, and stability. In 2010, the national poverty rate was 15.1 percent. According to a report by the Colorado Policy Fiscal Institute, Colorado's poverty rate now stands at 13.4 percent and has risen every year since 2006.

The results of the last *statewide* homeless count found that there were an estimated 16,203 homeless men, women and children on August 28, 2006. This point-in-time study is considered the most thorough and current statewide count to date by government agencies and organizations working with the homeless. By January 24, 2011, there were 11,377 persons homeless in the seven metropolitan Denver counties, according to the 2011 Metropolitan Denver Homeless Initiative (MDHI) Point In Time Survey. Of the 11,377 homeless in the Denver Metropolitan area, nearly one in four (23.7%) or 2,402 people, were considered newly homeless. Of the newly homeless, fully two-thirds (66.6%) were in households with children.

- 9.1 Strategy for Addressing Housing Needs.** Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. **Note: Small, Section 8 only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.**
